ECCN: EAR99 4

Item Description Model

e06-06-065-0885-1-200-0.22-SI-SMA-1.5-KL-VBG e06.0650885200

|  | Units   | Lower Spec | Typical              | Upper Spec |
|--|---------|------------|----------------------|------------|
| Optical  |         |            |                      |            |
| CW Output Power                                      | W       | 65         | 65                   |            |
| Wavelength Peak                                      | nm      | 884.0      | 885.0                | 886.0      |
| Spectral Width (FWHM)                                | nm      |            | 0.3                  | 1.0        |
| NA within 95% Power Enclosure                        | -<br>-  |            | 0.19                 |            |
| Fiber Core / Clad Diameter                           | μm      |            | 200 / 220            |            |
| Fiber NA / Index Type                                | -       | 4-         | 0.22 NA / Step Index |            |
| Back Reflection Isolation 1060 - 1200nm              | dB      | 15         |                      |            |
| Electrical   |         |            |                      |            |
| Electrical-to-Optical Efficiency                     | %       |            | 49                   |            |
| Threshold Current                                    | Α       |            | 1.8                  |            |
| Operating Current                                    | Α       |            | 13.0                 | 14.5       |
| Operating Voltage                                    | V       |            | 10.3                 | 11.1       |
| Wavelength Stabilized Operating Current <sup>5</sup> | A       | 9          |                      | 16         |
| Mechanical   |         |            |                      |            |
| Mass   | g       | i<br>i     | 85                   |            |
| Fiber Length   | m       | 1.4        | 1.5                  | 1.6        |
| Active Fiber Bend Radius                             | mm      | 35         |                      |            |
| Fiber Jacketing                                      | -<br>-  |            | 3 mm Kevlar Tubing   |            |
| Fiber Termination                                    | -       |            | SMA                  |            |
| Thermal  |         |            |                      |            |
| Waste Heat   | W       |            | 69                   |            |
| Operating (Housing) Temperature <sup>2,3</sup>       | °C      |            | +30                  |            |
| Wavelength Temperature Coefficient                   | nm / °C |            | 0.01                 |            |

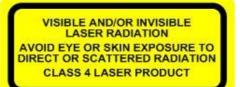

## Outline Drawing (Package Dimension 46 x 45 x 11.1 mm)

## Notes

- <sup>1</sup> Production specification shown are for beginning of life performance. End of life operating current (lop) is 110% beginning of life lop.
- <sup>2</sup> A non-condensing environment is required for operation and storage. Storage conditions are from -20 to +70 °C with relative humidity between 5 to 85 %.
- 3 Operating temperature defined by the package housing.
- 4 Export Control Classification Number (ECCN) as defined by the Export Administration Regulations (EAR).
- <sup>5</sup> Wavelength stabilized to >95 % power in band of 883.5 nm to 886.5 nm at the rated operating temperature.

This product is not certified in accordance with IEC 60825-1 or 21CFR1040.10/21CFR1040.11 and is solely intended to be integrated into a laser product certified by the Purchaser. The Purchaser acknowledges that their product (incorporating the nLIGHT laser product) must comply with the applicable regulations before it can be sold.

## Notice

nLIGHT continually improves its products to provide customers with outstanding quality and reliability, therefore may change certain specifications and product descriptions at any time, without notice. Additionly, nLIGHT offers a limited warranty to ensure customer satisfaction. For complete details, please contact an nLIGHT sales representative.
