OVERVIEW
LDI-638-FP-50 is a laser diode coupled to an optical fiber

MAIN FEATURES
• Wavelength: 638 nm
• Cavity type: Fabry-Perot
• Optical power: up to 50 mW in CW mode in single-mode fiber 630-HP
• Package types: coaxial with bracket

APPLICATIONS
• Biomedicine
• Laser Systems
• Spectroscopy
• Holography

ORDERING INFORMATION

LDI-638-FP-50 - X - 31 - X - X - X

Case type
B: compact coaxial with double-sided bracket
It is necessary to provide heat removal from the case

Fiber type
SM04: Nufern 630-HP, furcation tubing ø0.9 mm
SMP04: Fujikura SM63, PM fiber, PANDA type, furcation tubing ø0.9 mm
SM1: G.657.A1, furcation tubing ø0.9 mm
MM5: 50/125 (OM2), furcation tubing ø0.9 mm
MM6: 62.5/125 (OM1), furcation tubing ø0.9 mm
Standard fiber length 100 cm
Other type and length: on request

Connector type
FU: FC/UPC
FA: FC/APC
N: no connector
Other types: on request

Certification
CW: CW mode

Characteristics, data, materials and structures specified in this datasheet are subject to change without notice. Please refer to the latest specification before use of the products.

Safety and handling cautions
1. Laser light is very dangerous if shot directly into human eyes. Do not look directly into the output connector aperture or through optical components such as lenses, prisms, mirrors, microscope objectives etc. Wear protective goggles.
2. Avoid smashing and burning of the module. Avoid storing and using the module in conditions where water, organic solvents or aggressive acids or bases may contact the module or where there is a possibility of exposure to corrosive gases, explosive gases, dust, salinity or other harsh conditions. The module should be disposed as special industrial waste.
3. Exceeding absolute maximal ratings even for a short time can cause permanent damage of the module.
4. The module is sensitive to and can be broken by ESD (static electricity).

Conflict Minerals Policy Statement
LasersCom LLC achieves business objectives and customer needs with social responsibility. We do not support or contribute to the violence and human rights violations associated with the mining of conflict minerals coming from Conflict Regions according to US "Dodd-Frank Act". When possible, our suppliers' conflict mineral statements are reviewed. We do not directly purchase Conflict Minerals from any source and do not knowingly procure any parts and products containing Conflict Minerals from Conflict Regions.

RoHS Compliance Statement
Restriction of Hazardous Substances (RoHS) directive (Directive 2011/65/EC amended with Directive (EU) 2015/863) is the directive aimed at reducing the harmful environmental impact of waste electrical equipment by restricting the use of known dangerous substances. Based on information received from our supply sources, LasersCom LLC hereby states that the banned substances listed in the RoHS directive are not found in the parts and materials used above the threshold level listed other than exceptions approved by the European Commission.

REACH Compliance Statement
Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) is a European Union regulation 1907/2006/EC that addresses the production and use of chemical substances, and their potential impacts on human health and the environment. Based on information received from our supply sources, LasersCom LLC hereby states compliance of the parts and materials used in manufacturing to REACH regulation. LasersCom LLC does not manufacture or import any substances or preparations as defined under REACH.
