LASER LAB SOURCE

manufactured by  **RealLight**

980nm, 15W Laser Diode Detachable Fiber High Power Module

980NM, 15W LASER DIODE FEATURES

- o Output Power (CW mode): 15 W
- o Spectral Width (FWHM): <6 nm
- o Robust High Heat Load Package
- o 2 mW Red Aiming Laser
- o Removable Optical Fiber, 200 μ m Core
- o SMA905 Fiber Connector

HIGH POWER 980NM LASER DIODE

These high power 980nm laser diodes are packaged in a robust high heat-load (HHL) package. The integrated thermistor helps maintain the laser at a safe operating temperature when the laser is mounted to an active temperature-controlled mount. The monitor photodiode allows for constant-power mode operation, and the red aiming laser helps when integrating the laser.

The HHL package is designed to easily mount to a heatsink, and features an SMA connector to connect the detachable 200 μ m core optical-core fiber (NA 0.22).

RealLight lasers are known for their robust construction, and long operational life-times.

Pin	Function
1	Laser (+)
2	Laser (-)
3	FCD LED(N)
4	FCD LED(P); FCD PD(N)
5	FCD PD(P)
6	Aiming Beam LD(+); [DC 5V]; PD(N)
7	Aiming Beam LD(-); [GND]
8	PD(P)
9	Thermistor
10	Thermistor

SPECIFICATIONS

- Optical Output Power: 15 Watts
- Wavelength: 980 nm (± 10 nm)
- Spectral Width: ≤ 6 nm
- Threshold Current (typ) 0.5 Amps
- Operating Current: (typ): 10 Amps
- Operating Voltage (typ): 3.8 volts
- Typical Temperature Tuning Coefficient: 0.3 nm/ $^{\circ}$ C
- Slope Efficiency / η_{es} (W/A): 1.6
- Fiber Core: 200 μ m
- Connector: SMA905

AIMING BEAM

- Wavelength: 650 nm (± 10 nm)
- Output power: 2 mW

PRODUCT SALES AND SERVICE:

Orders for this product are fulfilled by Laser Lab Source in North America and select International regions. It is manufactured by RealLight, Beijing, China.

PRODUCT WARRANTY:

This product is sold with a full one year warranty. It is warranted to be free from defects in material and/or workmanship for a period of one year from the date of shipment.

Laser Lab Source, a division of Research Lab Source Inc.
